GOVERNMENT'S REACTION ON PAK SUCCESS IN THE NUCLEAR FREE ZONE RESOLUTION

*149. SHRI PRAMOD MAHAJAN: Will the Minister of EXTERNAL AFFAIRS be pleased to state:

(a) what is the reaction of Government of India on Pakistan's initiative in getting a resolution passed in UN Committee on a Nuclear Free Zone for South Asia; and

(b) what steps Government propose to take in this regard?

THE MINISTER OF STATE IN THE MINISTRY OF EXTERNAL AFFAIRS (SHRI EDUARDO FALEIRO): (a) and (b) Pakistan has been sponsoring in the First Committee of the U.N. General Assembly a resolution proposing the establishment of a Nuclear Weapon Free Zone in South Asia every year for the last 17 years. India has been opposing the resolution because nuclear disarmament has to be pursued globally rather than partially and because agreement of all the countries in the region is a prerequisite for such intiatives. India will continue to oppose the proposal.
